node-dank-do-while

An asynchronous do-while-like function for node

install

```
npm install dank-do-while
```

method

doWhile(eachFunction, doneFunction, concurrency);

eachFunction will be called once initially and then again for each time that `next(truthy)` is called

Signature is `function(next)`

doneFunction will be called once when `next(falsy)` is called

concurrency the number of concurrent **eachFunction**'s that may be executed

example

```
var doWhile = require('dank-do-while');

doWhile(function (next) {
  someAsyncFunction(function (err, result) {
    return next(result !== 'done');
  });
}, function () {
  console.log('done');
});
```
